

Name of

## **EMISSION CREDITS TRANSACTION REGISTRATION FORM**

**Account ID#** 

A Transaction Registration Fee as specified in Rule 309(c)(5), or Rule 308 (I) if applicable, is required from the buyer/transferee with the submittal of this form. (Note: This fee is not required if the buyer/transferee is a Rule 2202 regulated worksite and the emission credits are intended to be used for Rule 2202 compliance within the credit submittal cycle.)

(transfer to front page)								

- The emissions credit source code is assigned by the SCAQMD at the time the credits are issued and found on the issuance letter. The source code identifies the type of credits (such as mobile source credits or stationary source credits).
- 2. If there are emissions credits with different issuance, valid, and expiration dates, please list them on this page and transfer the total amounts to the front page.
- 3. These pollutant amounts can be used for inter-pollutant crediting. Any emissions credits intended to be used for inter-pollutant crediting must be identified on a separate row in the table above.
