Hi,
I am okay with the case being heard on consent. I made minor edits to the Proposed Findings and Decision document (see ~~strikeout~~ and underline in the attached file). The changes are:

1. Change from Regular to Short Variance on page 1.
 2. Edits to condition #3 to Proposed Conditions to remove the reference to excluding the PSPS hours since the engine has run over the 200 hours* and also to when the excess emission fees are due.
- Rule 118.1 (d)(2) An owner or operator of an emergency standby engine at a critical service facility that elects to exclude operating hours from the 200-hour annual operating limit

Please let me know if these changes are acceptable. Thanks.
