[ALL DOCUMENTS FILED WITH CLERK'S OFFICE BECOME PUBLIC RECORD]

4. **GOOD CAUSE:** Explain why your petition was not filed in sufficient time to issue the required public notice. (Required only for Emergency and Interim Variances; see Attachment A, Item 4)

On January 11, 2024, a trespasser entered the telecommunications facility and vandalized the site fencing and automatic transfer switch. This caused the generator to run continuously until the generator was turned off. The vandalism caused the need for extended generator power, wiring repair for the automatic transfer switch, and the need for mechanical parts for generator so it can be restored. These repairs were approved by Los Angeles Department of Water and Power on 04/22/24.

This resulted in:

- 727 hours of emergency runtime between 01/03/2024 02/07/2024
- 333 hours of malfunction runtime between 02/08/2024 02/22/2024
- 688 hours of emergency runtime between 02/23/2024 3/22/2024

I became aware of the runtime hours exceeding the permitted limit and submitted a self-reporting form to South Coast AQMD on 03/18/2024. The generator was shutdown on 03/22/2024 to await further instructions regarding variance approval.

We would like to request an additional 200 hours of allowed operation time, in addition to the 1754 hours this calendar year.

5. Briefly describe the type of business and processes at your facility.

Unmanned telecommunications facility where we provide back-up power (Generac SD080 emergency standby generator) to our facility and tenants for personal, commercial, and emergency uses.

18.	Can you curtail or terminate	operations in lieu of	or in addition to	, obtaining a variance?	Please explain.
-----	------------------------------	-----------------------	-------------------	-------------------------	-----------------

We want to immediately resume usage of our backup power generator because the shutdown interferes with the ability of American Tower's customers to transmit 911/emergency response communications.

19. Estimate excess emissions, if any, on a daily basis, including, if applicable, excess opacity (the percentage of total opacity above 20% during the variance period). If the variance will result in no excess emissions, insert "N/A" here and skip to No. 20.

	(A)	(B)	(C)*
Pollutant	Total Estimated Excess Emissions (lbs/day)	Reduction Due to Mitigation (lbs/day)	Net Emissions After Mitigation (lbs/day)
со	4.16		4.16
NMHC + NOx	19.55		19.55
PM	0.83		0.83

^{*} Column A minus Column B = Column C

Excess Opacity: %

Show calculations used to estimate quantities in No. 19, or explain why there will be no excess emissions.

This information is based on engine manufacturer's data for a 2021 Generac SD080 generator:

 $(0.6 \text{ g CO})/(bhp^*hr) \times (24 \text{ hr})/day \times lb/(453.592 \text{ g}) \times (131 \text{ bhp}) = (4.15880 \text{ lb CO})/day$

 $(2.82 \text{ g NMHC+NOx})/(bhp^*hr) \times (24 \text{ hr})/day \times lb/(453.592 \text{ g}) \times (131 \text{ bhp}) = (19.54638 \text{ lb NMHC+NOx})/day$

 $(0.12 \text{ g PM})/(bhp^*hr) \times (24 \text{ hr})/day \times lb/(453.592 \text{ g}) \times (131 \text{ bhp}) = (0.83176 \text{ lb PM})/day$

ATTACHMENT A

ITEM 1

Type of Variance Requested:

- (a) SHORT: If compliance with District rule(s) can be achieved in <u>90 days or less</u>, request a short variance. (Hearing will be held approximately 21 days from date of filing--10-day posted notice required.)
- (b) REGULAR: If compliance with District rule(s) will take <u>more than 90 days</u>, request a regular variance. If the variance request will extend beyond one year, you <u>must</u> include a specific detailed schedule of increments of progress [see Page 8, No. 24] under which you will achieve final compliance. (Hearing will be held approximately 45 days from date of filing--30-day published notice required.)
- (c) **EMERGENCY:** If non-compliance is the result of an unforeseen emergency, such as a sudden equipment breakdown, power failure, or accidental fire, you may request an emergency variance. You may request an ex parte emergency variance in addition to an emergency variance. An emergency variance cannot be granted for more than 30 days. (Hearing will be held within 2 working days from the date of filing, whenever possible, excluding Mondays, weekends, and holidays.) If you request an emergency variance, you must answer No. 4 on page 1.
- (d) **EX PARTE EMERGENCY:** If variance coverage is required on a weekend or when the Board is not in session, and you cannot wait until an emergency variance hearing can be held, you may request an *ex parte* emergency variance. An *ex parte* emergency variance will be granted or denied solely on the information contained in the petition and the District's response to the petition. Under most circumstances, an *ex parte* emergency variance will remain in effect only until a hearing can be held. If you request an *ex parte* variance, you must answer No. 4 on page 1.
- (e) INTERIM: If you require immediate relief (other than for emergencies) to cover the time until a short or regular variance hearing can be held, request an interim variance. If you request an interim variance, you must also request a short or a regular variance on the same petition. (Hearing will be held approximately 2 working days from date of filing, whenever possible, excluding Mondays, weekends and holidays.) If you request an interim variance, you must answer No. 4 on page 1.

ITEM 4

GOOD CAUSE: The Hearing Board is required to provide public notice of variance hearings, as the public has a right to attend and testify at such hearings. In order for the Hearing Board to hold an Interim, *Ex Parte* Emergency or Emergency Variance hearing without the required public notice, a petitioner must present facts which will support a determination by the Board that "good cause" exists to hear a variance without notifying the public about the variance and providing the public with an opportunity to present evidence concerning the variance.

ITEM 6

Example #1:

Equipment/Activity	Application/ Permit No.	RECLAIM Device No.	Date Application/Plan Denied (if relevant)*
Tenter frame		D32	
Chrome-plating tank	M99999		
Bake oven	123456		
Create special effects (fog)	N/A	N/A	N/A
Mfg., sale, distribution, use of non-compliant coating	N/A	N/A	12/10/95

ITEM 9

- a) If you are requesting relief from Rule 401 and the excess opacity during the variance period will reach or exceed 40%, you should also request relief from California Health and Safety Code Section 41701.
- b) If you are requesting relief from a permit condition(s), you should also request relief from the rule requiring compliance with conditions of the permit: 202(a), (b) or (c) Temporary Permit to Operate; 203(b) Permit to Operate; 2004(f)(1) RECLAIM Permit; 3002(c) Title V Permit.

Example #2:

Rule	Explanation
404(a)	tenter frame is vented to damaged air pollution control equipment
2004 (f)(1) [Condition No. 28-2 of Facility P/O No. 099999]	source test cannot be conducted as required until new ESP is installed
1113(c)(2)	petitioner manufactures and sells clear wood finishes with VOCs in excess of 350 grams per liter
401(a) & California H&S Code Section 41701	Opacity will exceed 45%.

ITEM 24

Example #3:

Sample Schedule of Increments of Progress

- Permit application(s) will be submitted to the District by [date].
- Contracts for the purchase of emission control systems will be awarded by [date].
- On-site construction will be completed by [date].

(Petition for Variance: Revised February 22, 2011)

South Coast Air Quality Management District 21865 Copley Drive, Diamond Bar, CA 91765-4178

PERMIT TO OPERATE

Page I Permit No. G66246 A/N 628914

ID 194439

This initial permit must be renewed ANNUALLY unless the equipment is moved, or changes ownership.

If the billing for the annual renewal fee (Rule 301(d)) is not received by the expiration date, contact the District.

Legal Owner or Operator:

SPECTRASITE COMMUNICATIONS, LLC

10 PRESIDENTIAL WAY, HAZMAT COMPLIANCE

WOBURN, MA 01801

Equipment Location:

2915 E 12TH ST, LOS ANGELES, CA 90023

Equipment Description:

Internal Combustion Engine, Iveco S.P.A., 4 Cylinder, Turbocharged, Aftercooled, Model F4GE9485A*J, 131 BHP, Diesel-Fueled, Driving an Emergency Electrical Generator.

Conditions:

- 1. Operation of this equipment shall be conducted in accordance with all data and specifications submitted with the application under which this permit is issued unless otherwise noted below.
- 2. This equipment shall be properly maintained and kept in good operating condition at all times.
- An operational non-resettable totalizing timer shall be installed and maintained to indicate the engine elapsed operating time.
- 4. This engine shall not be operated more than 200 hours in any one year, which includes no more than 50 hours in any one year and no more than 4.2 hours in any one month for maintenance and testing purposes.
- Operating beyond the 50 hours per year allotted for maintenance and testing purposes shall be allowed only in the event of a loss of grid power or up to 30 minutes prior to a rotating outage, provided that the utility distribution company has ordered rotating outages in the control area where the engine is located or has indicated that it expects to issue such an order at a certain time, and the engine is located in a utility service block that is subject to the rotating outage. Engine operation shall be terminated immediately after the utility distribution company advises that a rotating outage is no longer imminent or in effect.
- 6. This engine shall not be used as part of a demand response program using interruptible service contract in which a facility receives a payment or reduced rates in return for reducing its electric load on the grid when requested to so by the utility or the grid operator.
- 7. The operator shall keep a log of engine operations documenting the total time the engine is operated each month and specific reason for operation as:
 - A. Emergency use.
 - Maintenance and testing.
 - C. Other (describe the reason for operating).

ORIGINAL

South Coast Air Quality Management District 21865 Copley Drive, Diamond Bar, CA 91765-4178

PERMIT TO OPERATE

Page 2 Permit No. G66246 A/N 628914

In addition, each time the engine is manually started, the log shall include the date of operation, the specific reason for operation, and the totalizing hour meter reading (in hours and tenths of hours) at the beginning and end of operation

- 8. On or before January 15th of each year, the operator shall record in the engine operating log the following:
 - A. The total hours of operation for the previous calendar year, and
 - B. The total hours of engine operation for maintenance and testing for the previous calendar year.

Engine operating log shall be retained on site for a minimum of three calendar years and shall be made available to the South Coast AQMD representative upon request.

- 9. This engine shall comply with all applicable requirements of Rules 431.2 and 1470.
- 10. This engine shall comply with the following emission limits:

NMHC + NOx: 3.0 g/bhp-hr CO: 3.7 g/bhp-hr PM: 0.15 g/bhp-hr

11. Sulfur content of diesel fuel supplied to the engine shall not exceed 15 ppm by weight.

South Coast Air Quality Management District 21865 Copley Drive, Diamond Bar, CA 91765-4178

PERMIT TO OPERATE

Page 3 Permit No. G66246 A/N 628914

NOTICE

In accordance with Rule 206, this Permit to Operate or copy shall be posted on or within 8 meters of the equipment.

This permit does not authorize the emission of air contaminants in excess of those allowed by Division 26 of the Health and Safety Code of the State of California or the applicable Rules and Regulations of the South Coast Air Quality Management District (SCAQMD). This permit cannot be considered as permission to violate existing laws, ordinances, regulations or statutes of other government agencies.

Executive Officer

BY JASON ASPELL/SB07
