

Community-Identified Plan Approval Notice

Paving Project Plan

Air District: South Coast Air Quality Management District (SCAQMD)

Community: Eastern Coachella Valley

Community Emissions Reduction Program Measure: Chapter 5d, Table 2, Action A

Project Plan Identifier: 2022-19CIP-SC-2

Project Type: Exposure Mitigation

Project Plan Completion Date: February 24, 2025

CARB Action (Date): Approved; October 22, 2022

CARB Modification Action (Date): Approved; April 3, 2025

Project Description: This measure aims to reduce inhalable particulate matter of 10 microns or less from unpaved roadways in the community through paving projects (e.g., Polanco and mobile home parks, public county roads). This project plan outlines how SCAQMD, in collaborative partnership with appropriate entities (e.g., homeowners' associations, mobile home park owners) and the County of Riverside will implement paving projects in the community.

Project Benefits: Reduction in particulate matter from fugitive dust emissions.

Modification Description: This modification increases the awarded grant amount for non-construction costs to 25% and allows the air district to pursue other mechanisms to execute a contract including, but not limited to, a request for quotes (RFQ), program announcement (PA), sole-source contract, or memorandum of understanding (MOU) in the event the PA does not result in an executed contract.
