Class 2 Permit Modification for Quemetco, Inc.

South Coast Air Quality Management District (South Coast AQMD) staff appreciates the opportunity to provide comments on the above-mentioned document. Based on the Public Notice put forward by the Department of Toxic Substances Control (DTSC), Quemetco, Inc. operates a battery recycling facility (Facility) in the City of Industry and is requesting a Class 2 Permit Modification for the permanent installation and operation of a compression auger and a centrifuge. The modifications and/or addition of new equipment has been included in the permit evaluation by South Coast AQMD. If modifications and/or the Facility meets the definition of renovation under South Coast AQMD Rule 1403(c)(34), South Coast AQMD Rule 1403 – Asbestos Emissions from Demolition/Renovation Activities¹ would apply.

If you have any questions or wish to discuss the comments, please feel free to contact me, at lsun@aqmd.gov.

Sincerely,

Lijin Sun
