Permit Modification for Veolia ES Technical Solutions, LLC (Facility)

South Coast Air Quality Management District (South Coast AQMD) staff appreciates the opportunity to provide comments on the above-mentioned document. The following comments should be considered by the Department of Toxic Substances Control (DTSC) and included in the Permit Modification for the facility.

According to the Public Notice of Modification, the facility is requesting DTSC to modify the existing hazardous waste storage permit to conduct containment coating and lining maintenance activities. Additionally, the facility is also requesting a temporary authorization to allow storage of additional hazardous waste materials and extend the storage period from 10 days to 20 days. The facility is located at 1704 West First Street near the southwest corner of South Motor Avenue and West First Street in the City of Azusa, California.

Due to coating activities, South Coast AQMD staff recommends that DTSC review requirements of South Coast AQMD Rule 1113¹ and other rules related to coatings² to determine applicability, and if applicable, should be included in the Permit Modification. If you have any questions or wish to discuss the comments, please feel free to contact me at lsun@aqmd.gov.

Sincerely,

Lijin Sun
