

Airports MOU – ONT Biannual Progress Report
AQMD Mobile Source Committee Meeting
June 19th, 2020

Biannual Progress Report

- During MOU Approval in December 2019, AQMD Governing Board requested:
 - Biannual Reports to update AQMD on progress made and demonstrate commitment to MOU. Reports due:
 - June 2020
 - December 2020
 - Presentation to AQMD Mobile Source Committee at subsequent meeting after each submittal

ONT MOU Measures

- MOU Schedule 1: GSE
 - In early 2020, the Airport worked with airlines and GSE operators at each airport in the District to begin planning for implementation of the MOU between SCAQMD and each airport. The airports understand that the airlines have been planning for and taking the following steps:
 - Assess GSE fleet at ONT
 - Evaluation of GSE status and identification of equipment that may need to be replaced
 - Key factors: age, performance, historical trends
 - Evaluation of available cleaning burning and electric GSE
 - Budget planning for future GSE expenditures

ONT MOU Measures

- MOU Schedule 1: GSE
 - At ONT, we have also continued to evaluate how we can help ensure that the airlines and GSE operators can meet these targets. Our efforts have included:
 - Develop an inventory of existing EV charging infrastructure within the Air Operations Area (AOA)
 - At the passenger terminals, there are a total of 14 charging stations at 4 locations
 - For cargo carriers, there are currently 12 chargers at 2 locations
 - Identify and research grant funding and partnership opportunities to assist with installing additional EV infrastructure
 - For Example, determine eligibility and potential requirements for Carl Moyer

ONT Additional Measures

- Replaced 4 existing diesel-fueled emergency response vehicles with 2019 models equipped with Tier 4 engines.
- Updated a portion of the OIAA vehicle fleet with model year 2019 vehicles including electric hybrid Ford Escapes and Ford Fusions.

Public Outreach

- The Ontario International Airport Authority (OIAA) continues to hold regular meetings at 2 PM on the fourth Thursday of each Month.
- These meetings are open to the public.
- Members of the public are invited to comment on any topic during these meetings.
