## **South Coast AQMD Issues Windblown Dust Advisory for Portions of the South Coast Air Basin and Coachella Valley**

**Valid Saturday May 1, 2021 through Sunday May 2, 2021**

*This advisory is in effect through Sunday evening. South Coast AQMD will issue an update if additional information becomes available.*

A PM10 Dust Advisory is in effect on Saturday and Sunday due to predicted high winds.

The National Weather Service (NWS) has posted a Wind Advisory for portions of the eastern South Coast Air Basin and the Coachella Valley that is in effect from Saturday at 2:00 PM through Sunday at 11:00 PM. For information regarding the NWS advisory, visit the NWS San Diego (<https://www.weather.gov/sgx/>) website.

Winds of 20 to 30 mph from the west with gusts up to 50 mph are expected in the Coachella Valley, areas around Big Bear Lake, and the Idyllwild area. Gusts up to 60 mph are expected in and near the San Geronio Pass. Areas of blowing dust and sand are predicted throughout this wind event, which may result in **Unhealthy for Sensitive Groups** or higher Air Quality Index (AQI) levels throughout the affected area. Localized areas of blowing ash are possible in areas near the 2020 wildfire burn scars.

Areas of direct impacts and poor air quality may include portions of:

- **Riverside County:** Anza Valley (Area 27), Hemet-San Jacinto Valley (Area 28), San Geronio Pass (Area 29), Coachella Valley (Area 30)
- **San Bernardino County:** East San Bernardino Mountains (Area 38)

**In areas directly impacted by windblown dust:** Limit your exposure by remaining indoors with windows and doors closed and avoiding vigorous physical activity.
