**WHAT IS RULE 2305:** The South Coast Air Quality Management District (South Coast AQMD) [Rule 2305](#), also known as the Warehouse Indirect Source Rule (ISR) or the Warehouse Actions and Investments to Reduce Emissions (WAIRE) Program, was adopted in May 2021. This rule is focused on improving air quality by reducing emissions from warehouses and the vehicles and mobile equipment attracted to warehouses.

**APPLICABLE WAREHOUSES:** Rule 2305 applies to owners and operators of warehouses located in the [South Coast AQMD jurisdiction](#) with at least 100,000 square feet of indoor floor space in a single building.

**ANNUAL WAIRE REPORT (AWR):** The AWR is a mandatory annual report for applicable warehouse operators, due by January 31 each year, that identifies the actions and investments completed by the warehouse operator in the prior calendar year to comply with rule requirements.

- Reports must be submitted via the [WAIRE Program Online Portal \(WAIRE POP\)](#).
- Applicable warehouse operators must submit an AWR detailing the actions and investments they completed to earn WAIRE Points and demonstrate compliance with the rule.
- The AWR submission will be considered complete once both the certified AWR and fee payment are received (see [Rule 316](#) for fee amount).

**ASSISTANCE AND SUPPORT:** To help affected businesses comply, South Coast AQMD offers resources on the [WAIRE Program Webpage](#) including:

- WAIRE Implementation Guidelines and Frequently Asked Questions,
- WAIRE User Calculator and online training videos covering a range of topics, and
