Subject: [EXTERNAL] Comments on Rule 1111 & 1121

Mrs. Faye Thomas,
Please direct my comments to members of the governing board.

I respectfully request your NO vote on the banning of use of gas waterheaters, gas furnaces, and gas ranges. Our electric grid cannot sustain anymore demand. Our local citizenry cannot afford the increase in replacement costs and increase in utilities costs. Finally, until the cost and plentiful availability of electricity is made reasonable, this is not a practical solution.

Sincerely, Marsha Golden
