Dear Clerk of the Board South Coast AQMD,

I am a Seal Beach resident, and am submitting a public comment to urge the South Coast AQMD Governing Board to pass Proposed Rule 2306 to reduce pollution from freight rail yards.

This rule focuses on the worst polluters in the most polluted air basin in the United States. PR 2306 and other ISR regulations will help enhance air quality for Californians living or working near the railroads, and will reduce asthma, heart disease, and other health issues.

Polluters must be held accountable for cutting their emissions, for a healthier environment for everyone.

Sincerely,  
Tom Hazelleaf
