Subject: [EXTERNAL] Rules 1111and 1121

I heard about these new requirements for upgrading to electric appliances. I live in Yorba Linda and am in support of these proposed rules. I appreciate the effort to increase our air quality for everyone. I switched to an induction stove recently and plan to buy an electric water heater when my current one reaches end of life. Thanks.

Subject: [EXTERNAL] SUPPORT SCAQMD Rules 1111 & 1121

Dear SCAQMD,

I support Rules 1111 & 1121 to improve our air quality in Southern California. Our air is getting worse, most recently with the new administration loosening regulations.

Electric vs. gas will help to keep our population safer. We need to strengthen our electrical grid as well while we add more electric vehicles and water heaters into the system.

Please address this too in the amended rules.

Thank you.

*My Best,
Dianna*
